	Sep 2023	25.68				
	Dec 2023	25.24				
	Mar 2024	23.38				

The fund's benchmark changed from STeFI Composite x 1.10 to STeFI Composite with effect from 1 February 2021, in keeping with international best practice. STeFI Composite x 1.10 remains the fund's target. The effects on the fund's performance of the ABIL Retention Fund held between 2014 and 2016 are included in the reported performance, as those effects have now dissipated to the point of being negligible.

## OBJECTIVE

The objective of the portfolio is to provide a return in excess of Money Market portfolios, for investors seeking to earn a reasonable level of income with low risk of capital loss.

## APPLICATION

This fund enjoys a flexible mandate, and the manager will scour opportunities within money market instruments, vanilla bonds, inflation-linked bonds and equities, including listed property. Where good value exists in suitable foreign assets, moderate use may be made of these. The basic premise is that higher returns than money market funds are available, but because the assets that generate these also incur higher risks, they will be used judiciously and cautiously.

THIS COMMENTARY PERTAINS TO THE MAIN FUND. ATTENTION IS DRAWN TO SEPARATE COMMENTARY FOR THE RETENTION FUND.

Following two poor months for bonds, the FTSE JSE All Bond Index rose by 1.4% in April. Its 12-month return was pedestrian, at 6.8%.

Nonetheless, two possibly surprising return statistics on local bonds, as proxied by the ALBI: (i) Over 10 years to 30 April 2024, the ALBI has beaten equities (proxied by the SWIX) by 1.22% per annum, at roughly half the volatility and (ii) this millennium, domestic bonds have outperformed global bonds (proxied by the WGBI) by 2.01%, in any and every currency. The WGBI is dominated by developed markets.

Your fund has benefitted from its significant weighting to floating-rate notes (currently 50%). The spread duration on those is modest, at 0.94 as a weighted average. At month-end the fund yielded over 10.5%.

*An analysis of factors affecting the adherence to the policy objective is contained in the fund manager commentary together with performance as reported. A detailed listing of changes from the previous quarter is available on request from [info@miplan.co.za](mailto:info@miplan.co.za) or [clientservices@ipmc.co.za](mailto:clientservices@ipmc.co.za)*

Collective Investment Schemes are generally medium to long term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the manager. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The Manager retains full legal responsibility for the Fund, regardless of Co-Naming arrangements. Transaction cutoff time is 14:30 daily. Each portfolio may be closed for new investments. Valuation time is 15:00 (17h00 at quarter end). Prices are published daily and available in newspapers countrywide, as well as on request from the Manager. IP Management Company (RF) Pty Ltd is the authorised Manager of the Scheme – contact 021 673 1340 or [clientservices@ipmc.co.za](mailto:clientservices@ipmc.co.za). Standard Bank is the trustee / custodian – contact compliance-IP@standardbank.co.za. Additional information including application forms, the annual report of the Manager and detailed holdings of the portfolio as at the last quarter end are available, free of charge, from [clientservices@ipmc.co.za](mailto:clientservices@ipmc.co.za). IP Management Company is a member of ASISA. A statement of changes in the composition of the portfolio during the reporting period is available on request. The performance is calculated for the portfolio. The individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. The fund is invested in portfolios of collective investment schemes that levy their own charges, and which could result in a higher fee structure for the fund.

Investment management has been delegated to Vunani Fund Managers (Pty) Ltd FSP number 608 and Miplan (Pty) Ltd FSP 9383.

The portfolio may include foreign investments and the following additional risks may apply: liquidity constraints when selling foreign investments and risk of non-settlement of trades; macroeconomic and political risks associated with the country in which the investment is made; risk of loss on foreign exchange transactions and investment valuation due to fluctuating exchange rates; risk of foreign tax being applicable; potential limitations on availability of market information which could affect the valuation and liquidity of an investment. All of these risks could affect the valuation of an investment in the fund.

IP Management is a registered Collective Investment Manager in terms of CISC and performs administrative functions on co-branded MI-PLAN IP unit trusts for which it receives contracted fees. In terms of its licence, IP Management Company may not conduct any other business other than the business of running a Collective Investment scheme. Accordingly, all intermediary service and advice where applicable, is provided by MI-PLAN in terms of its licence for which remuneration is paid from the fees mandated in the supplemental deed and disclosed herein. MI-PLAN offers investors a unique liability matching offering that matches the client's portfolio to their unique needs as documented at [www.miplan.co.za](http://www.miplan.co.za). The complexity and uniqueness of this process and variability of each client's needs, required that technology be used to embed MI-PLAN's intellectual property in the financial service offering. In delivering this financial service, software is provided by MI-PLAN to advisers that determines a liability matched asset allocation, constructed using MI-PLAN IP funds. The design of the MI-PLAN software is based on the premise that the 25% allocated to MI-PLAN funds that provides the client with a foundation on which to choose other funds as mapped into the MI-PLAN software. As it's important to match the choice of product with the advice benchmark included in the MI-PLAN software should less than 25% of the clients product choice be directed to funds that are not similar to the MI-PLAN suite of funds, that a risk of a disconnect exists between the benchmark created and product choice. No fee is charged for the software and no obligation is placed on the advisor to offer, continue to offer, or offer to a minimum number of clients, this financial service. There are no other conditions placed on the advisors for the continued use of such technology that may influence the objective performance of the advisor. The advisor's obligations to render unbiased, fair advice in the best interests of you, the client, remains with your advisor. Your advisor's obligation is to compare this financial offering against all others and ensure it is the most appropriate for your needs.

Description	FUND
Yield to maturity	10.82%
Modified duration	0.92
<i>* Current</i> <i>Historically, the fund fact sheet (MDD) estimated the overall yield via a weighted average that combined nominal and real yields, as well as dividend yields on equities. A preferred methodology is to adjust real yields (on inflation-linked bonds) to estimated nominal yields by adding expected inflation. This preferred methodology is reflected in this month's MDD and a historical comparison is available on request</i>
