## Asset allocation

## Cumulative returns\*

\*The investment performance is for illustrative purposes only and is based on an investment of R100. Please refer to the disclaimers for the portfolio launch date and use of simulated returns.

## Investment strategy

This portfolio makes use of a strategic asset allocation methodology and is managed via the 27four Life platform to optimise costs and rebalancing opportunities. The portfolio is a conservative portfolio and is diversified across the major asset classes utilising a multi-manager approach whereby fund managers are combined based on their skill and expertise. The available asset classes include: bonds, equity securities, non-equity securities, money market instruments, preference shares, property securities and assets in liquid form. The portfolio may invest in foreign assets as permitted by legislation and complies with Regulation 28 of the Pension Funds Act, 1956. The offshore exposure of the overall portfolio will be based on that of the underlying funds.

## Fees (incl. VAT)

<b>Investment manager fee (p.a.)</b>	0.63%
<b>Total Investment Charges (TIC)*</b>	0.68%
<b>Policy fee (life and admin fee)</b>	0.16%

\*This is an estimated TIC based on the weighted average of the collective investment schemes (funds) in which the portfolio invests. The TIC has been calculated using the latest available data from Morningstar and Finswitch.

## Fund managers used in the portfolio

## Disclaimers

This investment portfolio is underwritten by 27four Life Limited, a registered long-term insurer. The portfolio is administered by Prescient Fund Services (Pty) Ltd, an authorised financial services provider in terms of the Financial Advisory and Intermediary Services Act (FAIS Act). The investment manager is Vivante Asset Managers (Pty) Ltd (Vivante) an authorised financial services provider in terms of the FAIS Act, FSP licence number 18715.

The launch date is the start date of the portfolio. Returns before this date are based on simulated returns using the portfolio's strategic asset allocation at the launch date, which would not reflect Vivante's historic asset allocation views, or any changes, which would have been made to the portfolio holdings over time. For these simulated return calculations, the underlying funds' retail share classes with the longest return histories have been used and for funds with limited return histories, the applicable index returns have been used. Returns for periods exceeding one year are annualised. The return for the Consumer Price Index (CPI) is at the end of the previous month. Total investment charges (TIC) are the sum of a fund's total expense ratio (TER) and the transaction costs (TC). The portfolio's TIC is an estimated total for the portfolio based on the weighted average of the underlying funds in which the portfolio invests using the latest available data. The underlying funds may contain exposure to assets that are invested globally, which may present additional risks. Individual investor returns may differ as a result of fees, the actual investment date, cash flows and other transactions. All returns from the launch date are quoted after the deduction of fees. All fees include VAT.

This fact sheet has been compiled to provide factual information on the policy offered and does not constitute advice as defined and contemplated in the FAIS Act. Past investment returns are not indicative of future returns and the value of investments will fluctuate over time. Independent financial advice should always be sought before making an investment decision. The investor acknowledges the inherent risk associated with the portfolio (currency, investment, market and credit risks) and that capital is not guaranteed. For details on the underlying funds in the portfolio, please refer to the minimum disclosure documents, which are obtainable from the relevant investment managers.
